

## DIPHER 24

# Diversity in Physics for the Diversity of Physics Erlangen 2024

DIPHER24 aims to delve deep into the intersectionality of gender, diversity and cultural perspectives in the physics community. We invite you to take part in valuable discussions with researchers, educators, students and professionals about scientific and individual experiences. Participants from all academic levels are welcome to join!

**November 5th to 7th**

Lecture Halls of the Physics

Department

Staudtstraße 7, 91058 Erlangen

### Confirmed invited speakers:

- Shada Abuhattum (MPL Erlangen)
- Seth Asante (University of Jena)
- Alicia Castro (University of Bordeaux)
- Alicia Ruoco Escorial (ESAC Madrid)
- Cosimo Inerra (Cardiff University)
- Tanniemola Liverpool (University of Bristol)
- Patricia Pyrka (Canada's National Ballet School Toronto)
- Flavio Seno (University of Padova)
- Sumati Surya (Raman Research Institute)
